

Did you know?
Cows are ruminants and have four stomachs. When we eat, small amounts of grass are brought back into our mouths and chewed, this is called chewing the cud.

Did you know?
Every calf has its own passport to identify which farm they come from and who their parents are.

Did you know?
The cow is a herbivore and has 32 teeth for chewing grass.

Colour In

Colour in the picture of 4-wheel Neill and Doddington Dairy Daisy.
